## PERSONAL PROJECTS

### Clone of Usability Hub

- Learnt the basics of HTML and CSS.

### Diabetes prediction

- this project helped me understand workflow of ML projects.
- Achieved 88% accuracy on a public dataset.
- **Tools:** Sklearn.

### Sentiment analysis on Movie reviews using LSTM RNN

- Built a model with 86% accuracy to classify positive and negative tweets.
- Preprocessed tweets and used embedding layers for feature extraction.
- **Tools:** TensorFlow, keras , Pandas.

### Study Plan Chatbot

- Designed and implemented a chatbot using Dialogflow to assist users in creating personalized study plans. The bot efficiently handled user queries, recommended study schedules, and provided motivational tips.
- **Tools:** Dialogflow, Flask (for deployment).
